PRODUCT SPECIFICATION

Description

Premium synthetic engine oil designed for the latest generation of fuel efficient and high performance Ford diesel engines. Recommended for petrol and diesel passenger cars and light commercial vehicles.

MQFD 5W-30 synthetic engine oil has been specifically formulated for use in Ford's latest fuel efficient diesel engines including turbo and supercharged versions requiring a low viscosity 5W/30 oil of this specification. Advanced additive technology provides long-term benefits including reduced wear on critical valve-train components and essential protection during start-up. This product is backward compatible with units requiring Ford WSS-M2C913-C, designed primarily for use in Ford 2.2 Duratora engines.

- Improved engine efficiency and fuel economy
- Low volatility levels
- Excellent cold starting characteristics to protect against engine wear and reduce engine
- Advanced additive technology to provide Turbocharger protection
- Offers improved flow rates at low temperatures and increased film strength at high temperatures
- Improved engine cleanliness
